

SLOPED PERIMETER METAL

A Sloped Perimeter Metal install is a solution for unsightly black, brown or green stains running down exterior walls caused by incorrectly installed metal trims and flashings. This is usually indicative of water entering the wall cavity also creating major expense in the long term. Foran's Roofing offers a low cost, custom solution which we design and install ourselves.

Email askservice@foransroofing.com or call **905-668-3244** for additional information and site-specific pricing.
